Program Description

Symphony In Your School is a free residency program that provides students the opportunity to interact with and learn from the world-class musicians of the St. Louis Symphony Orchestra. Schools that are selected to participate in SIYS will receive visits from SLSO musicians tailored to the individual needs of each respective school. As a culmination of this program, students will attend an SLSO concert to experience their SLSO mentors perform live at Powell Hall. For more information, click the links below:
